

## I'm So Lonesome I Could Cry

**C**                      **Am**      **C**                                      **C7**  
Hear that lonesome whippoorwill, he sounds too blue to fly.  
**F**                      **Am**      **C**                                      **G7**      **C**  
The midnight train is whining low, I'm so lonesome I could cry.

**C**                      **Am**      **C**                                      **C7**  
I've never seen a night so long when time goes crawling by.  
**F**                      **Am**      **C**                                      **G7**      **C**  
The moon just went behind the clouds to hide its face and cry.

**C**                      **Am**      **C**                                      **C7**  
Did you ever see a robin weep, when leaves begin to die  
**F**                      **Am**      **C**                                      **G7**      **C**  
That means he's lost the will to live, I'm so lonesome I could cry.

**C**                      **Am**      **C**                                      **C7**  
The silence of a falling star lights up a purple sky.  
**F**                      **Am**      **C**                                      **G7**      **C**  
And as I wonder where you are, I'm so lonesome I could cry.
